Dear Parents,

We have commenced exploring the use of colour through creative activities. There is often discussion about the link between a colour and how it represents an emotion.

I will be asking the students about their favourite colour and the reasons for their choice soon. It is my intention that all students will use their information to participate in a speaking/listening task. To confirm their colour and provide a stimulus when speaking I ask that you provide a length of ribbon approximately 30cm long. If you do not have access to ribbon please advise me so I can offer your child a selection. Please complete this request by the end of Term 1.

Please have a conversation with your child and if possible have them present when the ribbon is chosen. This allows for some ownership of the task and builds confidence to speak about it in front of peers.

After the news telling the ribbons will be tied to the child’s school hat so that it acts as an identification tag.

Thank you for your support.
